## Windows® 95 Installation

4. Double-click the INSTALL icon to start the installation program

Once the game is installed, double click the SETUP icon in your Blood folder to configure the game to your system. If you are unsure which settings to choose, consult your computer or sound card manual, or right click your My Computer icon and select the Device Manager tab, which should list the necessary information. If you know you have a sound card and speakers but are unsure of the brand, select SoundBlaster for both Music and Sound Card as it's the most common.

If you experience problems running Blood in Windows95, you will have to restart your computer in MS-DOS mode. Click on the Start button and select Shut Down. Select Restart the computer in MS-DOS mode? and click OK.

When your computer restarts, follow the DOS installation instructions above.

**IMPORTANT!**

Windows 3.1 users must exit to DOS before installing Blood. Click File in the top left hand corner of your Program Manager window, select Exit Windows, and then click OK. Note that each time you play you'll have to exit Windows and then switch to the Blood directory (by typing CD\BLOOD and then pressing [ENTER]).
# WEAPONS

The following weapons have new modes in the Plasma Pak. Please press the Alt Fire Key to get a new variation of the basic weapon.

### INCINERATOR
This monstrous weapon launches a huge ball of flaming napalm at an extremely high velocity. If the initial explosion doesn't kill your enemy, the burning probably will. Best used with extreme caution, especially in tight areas. The alternate fire launches several napalm projectiles, covering a wider area but also chewing up a lot more ammo.
*Ammo:* Gasoline cans

### TESLA CANNON
This powerful prototype weapon packs a mighty load of amperage. Nikola Tesla would be proud.
*Ammo:* Batteries

### LIFE LEECH
This artifact draws its power from the life energy of your foes. Run low on ammo and it saps your own strength!
*Ammo:* Souls

# ENEMIES

The following new enemies have been added to Plasma Pak.

### ELITE CULTISTS
These blue-robed Tesla Cannon wielding cultists have been through special 'training' to make them very mean. Their armor protects them from electrical damage.

3

**ACKOLYTE**
These cultists-in-training lob dynamite at you. Keep your ears tuned for the deadly hiss of an incoming bundle.

**PRIEST**
These red-robed Chosen-in-training have started their transformation into what you once were…. The Chosen.

**PODS**
These many-tentacled vegetable patches have trapped many an unwary adversary.  They spit a sticky vile fluid that is very difficult to shake off.

**FIRE PODS**
These abominations have roots that go down to the bowels of the earth. They spew lava and can do serious damage.  Be very careful not to become fertilizer.

# BLOOD TOOLS

Tools for creating art and maps for Blood are contained in the tools directory on the first Blood CD-ROM.  You should run the install program (install for DOS, winstall for Windows) and place the files in the directory where you installed Blood.
